Office entrance

Entrance to underground carpark

Getting there

...by car:

Preferably you should park in one of the visitor's parking lots in the underground garage. Please leave the carpark the same way you entered it and walk towards the towers. You will receive parking-coins from us.

...by public transport:

S-Bahn-station "Treptower Park" or subway station "Schlesisches Tor". Approximately 5-10 minute walk.

Door-bell-system:

The entrance door can only be opened from the inside. To activate the door bell, please go the number pad beside the post boxes. Press „EIN“ and then enter the number "1299" (see photo below). We will respond via intercom and open the front door. After entering, take the elevator to the seventh floor.
